

### The MUTUAL (ECS) Electronic Control System

The A,B Series safe deposit box can be incorporated into the MUTUAL integrated safety deposit system. This system facilitates operation and control of access. It is capable of expansion in several ways and at different levels. For example, it can be simply adapted to meet the needs of individual customer management, or even transformed into a complete self service system for customers accessing their safe deposit boxes

### Bond Box dimension (in)

	Model	H	W	D
A	3" x 5"	2.67	4.33	21.37
B	5" x 5"	4.72	4.33	21.37
C	3" x 10"	2.67	9.92	21.37
D	5" x 10"	4.72	9.92	21.37
E	10" x 10"	10.00	9.92	21.37
F	15" x 10"	14.37	9.92	21.37

“Maximize your return on safe deposit box services”

### MUTUAL (ECS) customize A.B series safe deposit boxes

**The A.B Series safe deposit boxes come in a unit with excellent theft prevention performance**

The MUTUAL A.B series safe deposit boxes have been designed to meet exacting security requirements while making the most efficient use of vault space and providing the vault with lockers featuring a most attractive design

There are two models available, the A series and the B series. They differ from each other in door material. A series are constructed of solid aluminum alloy. Machined for precise fit and finished in front and back with a stainless steel plate. B series are constructed of solid polish stainless steel. Each model offers different combinations of numbering, bond box and lock. You can choose to have the locking system manually operated or controlled by electronic control system

#### **Construction**

Reinforced coated steel case. All sections have provisions for securing adjoining sections at top, bottom, and sides. Door is installed on the only frame. There are no targets for damage and malfunction.

#### **Doors**

The A series are constructed of 1/2 precisely extruded aluminum alloy. Machined for precise fit. The B series are constructed of 3/8 solid steel, high class material

#### **Hinges**

The hinges are hidden which are set inside the door.

#### **Locks**

Double nose U.L. listed key changeable locks with two customer keys each. Single nose lock for electronic control system.

#### **Numbering**

Flexible numbering system with white intaglio characters on black plastic which compliments the stainless steel and aluminum alloy door.

#### **Bond Box**

Durable lightweight bond box. Made of heavy-duty polypropylene. Heat and impact resistant

#### **Pull out shelves (optional)**

The convenient pull out shelves, press lightly, pop out smoothly.

#### **Key tray (optional)**

The key tray comes in two types. Insertion key tray and envelope tray. Insertion key tray is for vacancy twin key, envelope tray is for use in single sealed key

#### **Bases (optional)**

Heavy channel steel base with stainless steel trim plate and leveling legs

#### **Ladder (optional)**

Reach easily and quickly with our 3 step and 2 step ladders.
