

For those seeking the ultimate in security, the MK-15 Gun Safe provides the answer. The MK-15's reinforced steel body and 1/4" plate steel door produce unbeatable security. The MK-15 is offered with a choice of two interiors to meet the needs of any gun enthusiast.

The MK 15, SABS Small Arms Safe incorporates a high security re-locking device. Three solid steel locking bolts, as well as three solid dead bolts, prevent the door from being removed while in the locked position. The complete range offers the option of an additional combination lock or key lock.
